

MCARTHUR SQUASH CENTER

PROJECT SUMMARY

LOCATION

University of Virginia
Charlottesville, VA

MATERIAL

Thin Seam, Roofing
Thin Seam with
Batten, Walls
Select Series, Walls

SIZE

33,000 sq. ft.

FINISH

Bright Silver, Medium Bronze

INSTALLER

Kjellstrom & Lee Construction

**QUALIFIED
ARCHITECTURAL DEALER**
NB HANDY

ARCHITECT

Bartzen + Ball

FORWARD THINKING, SUSAINABLE DESIGN

For the purposes of the McArthur Squash Center at Boar's Head Sports Club in Charlottesville, VA, the Fabral Thin Seam with Batten panel system was designed for the sidewall in combination with Silhouette HCF wall panels and Thin Seam standing seam roofing. The wide batten utilized with Thin Seam provides a bold board-and-batten look incorporated with a strong core panel system. The Thin Seam with Batten panel system is used at the entrance to the building for both its functionality and its aesthetics. This panel system blends harmoniously with the adjacent construction materials and is easily trimmed out at the window and entranceway transitions. Additionally, while the McArthur Squash Center stands apart with its forward-thinking, sustainable design, it blends well with the traditional construction materials common to the UVA campus. The Thin Seam with Batten panel system utilizes the standard 1-3/4" deep snap seam type Thin Seam panel system with a butterfly clip installed over the Thin Seam standing seam and a 1-7/16" x 2" batten cover. This system provides ease of installation for both roofing and wall panel applications. Further, this enclosure system is sustainable as the metal substrate contains recycled content and is wholly recyclable. The Thin Seam panels can be rollformed on site if required and specified.

ABOUT FABRAL

Lancaster, PA-based Fabral is the premier supplier of metal roofing and wall panels for architectural, educational, commercial, industrial and agricultural applications. Founded in 1967, Fabral has been widely recognized as the benchmark leader for over 45 years. As a leader in the metal roofing and wall panel systems, Fabral's quality product offering, advanced engineering support and dedicated customer service have elevated Fabral to become the provider of choice. Fabral is a division of OmniMax International, Inc.

ABOUT OMNIMAX

OmniMax International, Inc is a global producer of architectural copper, cladding, patio, roof and lawn drainage, snow retention, windows and transportation products for original equipment manufacturers, distributors, contractors and home centers worldwide. Formed in 1996, it leverages "the power of one" with its extensive product offering, advanced systems and dedicated team of experts. Through its network of twelve brands, OmniMax collectively offers more than 1,000 quality products to serve the diverse needs of its customers. Euramax brands include Alumawood, Amerimax, Amerimax Fabricated Products, Amerimax Windows & Doors, Equinox Louvered Roof, Berger Building Products, CopperCraft, Euramax Coated Products, Euramax Industries, Ellbee, Fabral, and Global Expanded Metals.
