

## ELEVATE FUNCTIONALITY WITH METAL TRIM

Fabral® Metal Trim offers crucial protection while adding dimensional flair to your structure. The unique painted interiors of Fabral® FJ-10 Trim creates a seamless color-matched solution. Typically affixed to beams or studs along the underside of the roof overhang, the FJ-10 Trim plays a vital role in soffit installation by creating a shelf to support the ends of soffit pieces.

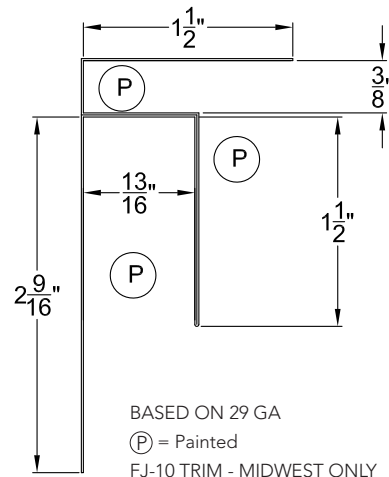

### TRIM DETAILS:

Fabral offers a standard package of flashing and trim for a variety of applications. Flashing is factory-formed at 10' 6" lengths and available in steel and aluminum with coordinating WeatherXL™ finishes and colors. Flat metal sheets are also available when installer fabrication is preferred.

### AVAILABLE IN 20 COLORS:
