Background

Situated on approximately 18.7 acres in Centerville, Maryland, at the intersection of Little Kidwell Avenue Extended and Vincit Avenue, stands the Queen Anne's County YMCA. This expansive project encompasses three playing fields, comprehensive site enhancements, an inviting outdoor pool accompanied by a modern pool house, and a striking new building spanning approximately 48,000 square feet. Within this structure, a multitude of functions are seamlessly integrated, meticulously designed in accordance with the building program elements.

On October 18, 2023, the Queen Anne's County Family YMCA and Active Aging Center marked a milestone with its grand opening ceremony, adorned with a jubilant Ribbon Cutting Ceremony. This innovative facility, borne from a partnership between the YMCA of the Chesapeake and the Queen Anne's County Department of Community Services, Area Agency on Aging, signifies a bold stride towards delivering holistic health and wellness services to the community. Embracing a multi-generational ethos, it stands as a testament to enhancing the overall well-being and vitality of Queen Anne's County residents.

The Solution

QUEEN ANNE'S COUNTY YMCA

ACR Metal Roofing and Siding opted for Fabral Twin Fold II Metal Roofing Panels for this project, which were skillfully roll-formed on site. One of Fabral's standout advantages lies in its provision of Onsite Roll-Forming Service to customers. This service entails deploying a specialized mobile roll-forming unit and expert personnel to manufacture materials directly at the project site. In certain instances, roll-forming is conducted at the roof line elevation, facilitating the seamless integration of roof panels onto the roof structure. Fabral is revitalizing its Onsite Roll-Forming Program and leveraging this expertise to offer customers greater flexibility in long-run roof solutions and specialized applications.

"The YMCA stands as a welcoming beacon at the heart of our community, extending its reach across Queen Anne's County," remarks Robbie Gill, CEO of YMCA of the Chesapeake. "With the completion of the new Queen Anne's County Family YMCA, we have established one of the largest YMCA facilities on the Eastern Shore. This marks a truly transformative occasion for Queen Anne's County."

About Fabral

Fabral is the premier supplier of metal roofing and wall panels for architectural, educational, commercial, industrial and agricultural applications. Founded in 1967, Fabral has been widely recognized as the benchmark leader for over 50 years. As a leader in the metal roofing and wall panel systems, Fabral's quality product offering, advanced engineering support and dedicated customer service have elevated Fabral to become the provider of choice.
